
QUERDENKEN

711 – Stuttgart

Press release

Nationwide demonstration in Berlin on the 1st of August 2021: “The year of freedom and peace“

Stuttgart/July 13th, 2021 On Sunday August 1st, 2021 the first mass demonstration of Querdenken 711 in Berlin in the year 2021 will take place. The Querdenken demonstrations are no anti-Corona-demos, but demos for the re-establishment of our fundamental rights, as we consider the government's measures from scientific and legal points of view as completely inadequate.

In the media it is reported again and again that we demonstrate “*against the precautionary measures against the Coronavirus disease*“. This claim is misleading and off-topic: They aren't precautionary measures, but prohibitions that massively restrict the fundamental civil and human rights and liberties of all citizens as a means to resist interferences of the state. If they were in fact „*precautionary measures*“ and if, in particular, they were in proportion there wouldn't be again and again so many courts to declare by judgement these measures as out of proportion and unconstitutional.

Precautionary measures wouldn't lead to a lot of collateral damage, to depression and suicide in otherwise healthy mental conditions. Middle class and smaller businesses and the retail sector are about to collapse; and at the same time the rapid increase of inflation is leading to an expropriation of pensioners and savers. The health system is cut down: Hospitals are closed down, the number of beds in intensive care units is reduced.

Scandals and corruption

Mask deals by which politicians make a lot of money. #DIVIGate, the clear position of the STIKO, the proof of the absolute inefficiency of the measures by the statisticians of the LMU. TestGate in which in four weeks time 659 million tax revenues were wasted, defected masks worth 1,000 million euros that are to be destroyed. Anthony Fauci's emails that cast a different light on the truth.

From the very beginning of the pandemic the political rulers have created an arbitrary peace for themselves and a condition of permanent surveillance by a multitude of regulations and newly accorded powers to the police and border guards in order to further restrict human rights throughout Europe. Predatory capitalism has failed. People shall continuously separate themselves from each other and lose their jobs, shall work overtime, renounce salaries, and ruin their health. Children, adolescents and students don't have future prospects as schools and education have been cut back for fourteen months.

Who is making money on the crisis?

The rulers are trying to tell us not to show our solidarity with each other, but – for fear of Covid - to close our eyes to what's happening: the greatest wealth redistribution from bottom to top and a wave of expropriation with a historical extent. We will not do so – we are many and we are more.

The end of the “Querdenkers“?

“What does the “ending“ of the pandemic mean for the Querdenken movement?“ – frequent question asked by journalists

Our answer:

The Oktoberfest 2021 has been cancelled, and the European championship 2021 may only take place with 20 % of the spectators. We cannot detect an “ending“ of the measures. It's becoming clearer and clearer that participation in societal life without vaccination will soon be no longer possible.

Mixing up of demonstrations

The assembly of Querdenken 711 will take place, as on August 29th 2020 and August 1st 2020, in the Straße des 17. Juni in Berlin. We would like to emphasize this for there was some mix-up in the media reports on the demonstrations. It was impossible for the Tagesschau to differentiate between our mass demonstration on the one hand and the other 120 demonstrations on the other hand – one of which being the one in front of the Reichstag. Still-Senator of the Interior Geisel had tried to forbid our demonstration on August 29th 2020 for the following reasons:

“Your assembly is directed against the federal government's, respectively the single state governments' measures to contain the Sars-Cov-2 virus, which you consider as excessive.“

and had called us “radicalized demonstrators“, “right-wing extremists“ and „Reichsbürger“ (citizens of the Third Empire).

Dis-empowerment of the parliaments

Regulations do not constitute suitable statutory bases. They contravene parliamentary reservation through administrative channels, exceed the creative leeway of the executive power, and thus violate the principle of contents, purpose and extent (“*Bestimmtheitsgrundsatz*“): By the many changes of the Corona regulations issued in quick succession, a reliable and stable regulatory framework is no longer given for the citizens.

Societal life is restricted in sensitive areas of fundamental rights for an unforeseeable duration, which requires a formal process of parliamentary legislation. This parliamentary reservation deduced from the principle of the due course of law and the dictate of democracy obliges the legislative power to pass essentially by itself the regulations which are significant for the realisation of the fundamental rights, and to not leave these to the executive authority's acting with the power to decide.

Constitutional law expert Andrea Edenharter comments on that: “*The committee by which the far-reaching measures are decided is very problematic relating to constitutional law because the conference of the minister-presidents and the chancellor is not provided for as an organ by the Basic Law. The principle of the due course of law demands that all essential decisions be made by the parliament itself.*”

We therefore would like to ask you to report in future on our demonstrations as “*demonstrations for the re-establishment of all fundamental rights as well as for the observing of the Human Rights Convention.*”
